

DISCIPLESHIP & COUNSELING	Have assisted people both formally and informally. Informal discipleship includes helping with friends and acquaintances as well as working with fellow missionaries and nationals to resolve personal and interpersonal problems on the mission field. Formal counseling includes being paid by clients as a counselor. Difficult situations include: infidelity, sexual abuse, paranoid schizophrenia, histrionic personality disorder, demon possession, and domestic violence; to mention a few.
SPIRITUAL LEADERSHIP	In addition to discipleship and counseling experience, have been involved with leading, teaching, and preaching, both in USA and internationally. Preaching experience includes being part of an international team that rotated Sunday morning preaching responsibilities. Have taught numerous topics in various situations. Leadership includes station director, fellowship groups, bible study groups and teams that focused on ministry goals.
ENGINEERING	Broad electrical engineering experience with major emphasis in audio, communications, and broadcast. Results accomplished through teamwork, communicating, researching, designing, and planning. Was a key member of a team that implemented a 100,000-watt AM station in Africa. Have transitioned post-apartheid cross-cultural production facility in Africa from analog to digital while maintaining relationships with all parties involved. Have designed, built and implemented an innovative \$400,000 youth facility on wheels (including power generation, staging, sound, lights, video, and inflatable games).
